

Notice of Incomplete Immunization Schilling Farms Middle School

Dear Parent/Guardian of 6th grade students,

According to the Tennessee School Immunization Laws, all 7th graders must provide evidence of the following vaccines: Tdap booster and 2nd dose of Varicella (unless child has had the disease, record must indicate this). ***Please inform your health care provider to submit the mandated vaccines on a completed new TN Certificate of Immunization. The completed record MUST indicate ALL of your child's vaccines, as well as an examination within the last 12 months.***

According to state law, we cannot allow your child to enroll in school for the 2016-2017 school year if we do not have evidence of immunization completion. To facilitate registration, you may begin to bring the required documentation to the school office.

If you have questions, please contact us.

Thank you.
